Salt Crystal Lamps come from a number of locations throughout the world; however, the finest quality with the most captivating warm hues and glow seem to come from the Himalayas of Pakistan, where we obtain our lamps. Our lamps are carefully hand-crafted and expertly chosen for their premium color and natural warmth. We use strict quality control to ensure that each and every lamp is an authentic richly-colored salt with its own unique character.

Salt Crystal Tea Light Holders

are made from the same rock salt crystal that is used for our Salt Crystal Lamps. Simply light the enclosed tea light and it creates a warm glow without the use of electricity. These Natural tea light holders are available in small and medium single hole, as well as 2-hole and 3-hole styles. Available from the Design Series are the Heart, Lotus Flower, Yin-Yang, Star, Moon, Sun, Carved Vase, and Om designs.

Ancient Secrets® Himalayan Natural Rock Salt Lamps

are hand carved salt products from the Himalaya Mountains of Pakistan. The warmth and natural beauty of the glow provided by these lamps makes them a wonderful accent for any room, as well as an outstanding and much appreciated gift for friends and loved ones. They provide a natural ambiance that enhances home and office, and are a perfect answer for providing Feng Shui cures for buildings that have “stuck” energy (chi). Salt Lamps are traditionally considered to emit negative ions, which help improve the feeling of a room, and enhance the natural sense of good feelings and energy. They are considered especially beneficial to help cleanse and neutralize the atmosphere of the energy impacts of computers, microwave ovens, TV sets and other electronic devices which all emit positive ions and thus reduce your energy.
