

## Choosing the Right Variety For You

### Unscented

For those who prefer the pure Dead Sea bath salt experience, unscented is for you. This is also the choice for those who have a particular favorite fragrance. You can add a couple of drops of your favorite essential oil to scent your bath to your own preferred aroma.

*Available in 4 oz. packets, 1 lb. box and 2# jar*

### Eucalyptus

We add pure Eucalyptus essential oil to the Dead Sea salt to enhance your bathing experience with the tangy, invigorating fragrance of eucalyptus. Eucalyptus is famed for its properties of penetration and opening and is frequently used to aid in soothing tired muscles and in providing a refreshing energetic boost to the breathing process.

*Available in 4 oz. packets, 1 lb. box and 2# jar*

### Evergreen Forest

This is a blend of essential oils including Fir Needle, Patchouli, Ylang Ylang, Vetiver Geranium and Cypress to provide you with a rich scent reminiscent of an evergreen woods, combined with the Dead Sea bath salts.

*Available in 4 oz. packets and 2# jar*

### Lavender

The relaxing, soothing effect of Lavender has made it one of the most popular of all the fragrances.

*Available in 4 oz. packets, 1 lb. box and 2# jar*

### Patchouli

Patchouli is an evergreen shrub in the mint family and it has a rich, almost intoxicating complexity to its fragrance. Another extremely popular fragrance that provides a sensuous richness to the bathing experience.

*Available in 4 oz. packets and 2# jar*

# ANCIENT SECRETS®

## BATH SALTS FROM THE DEAD SEA

### Rediscovering an Ancient Secret

For thousands of years, people have traveled long distances to bathe in the Dead Sea. They come away soothed, relaxed, refreshed and invigorated due to the properties of the sea which contains not only the highest salt content of any major body of water on the planet, but also a blend of mineral salts which work synergistically together to provide the benefits of these salt baths. People have found that their skin responds to the rich mineral salt content, as well as their muscles and joints which enjoy the opportunity to soak up the minerals and the warming action that occurs through the bathing process.

All over the world, expensive resort spas provide mineral salt bathing as a central activity. Sports trainers use mineral salt baths to prepare world-class athletes for optimal effort and to help them maintain their peak physical conditioning.

The secret here is the high mineral salt content, including a high percentage of magnesium chloride among other salts, which has the ability to change the thermal quality of water and which elicits an invigorating response through the process of bathing.

Of all the salt bath programs, the one that has stood out throughout time as having the premier benefit is Dead Sea salt baths. Ancient Secrets® has been importing pure salts from the Dead Sea for many years, bringing these benefits to you in a convenient, easy-to-use form.

## **Ancient Secrets® Dead Sea Bath Salts**

Ancient Secrets® supplies unscented Dead Sea salts in 3 convenient sizes: a 4 oz. packet (enough for 1-2 baths) and in a 1# box and a 2# jar.

Ancient Secrets® also supplies aromatherapy, Dead Sea bath salts using pure essential oils for the fragrance. The available scents include Eucalyptus, Evergreen Forest, Lavender and Patchouli. All of these are available in 4 oz. packets and 2# jars. Eucalyptus and Lavender can also be obtained in a 1# box.

## **Quality Considerations**

Not all Dead Sea salts are the same. Some brands use large chunks of salt which make it impossible to effectively remove rocks or other debris, and which causes them to dissolve into the water more slowly. These products are therefore not suited for use in whirlpool baths or hot tubs because they can damage the internal machinery.

Ancient Secrets® uses fine salt that has been mechanically cleaned and dried, thereby ensuring that there are no rocks mixed in. The salt dissolves right away, bringing the benefits of the high salt content to your chosen bathing experience without delay and without any chunks to damage the pumping mechanism of a whirlpool or hot tub.

Obtaining these high quality fine salts costs a little bit more, which is why some companies go with the much cheaper raw salt chunks. Ancient Secrets® Dead Sea Bath Salts are therefore the best option for experiencing the many beneficial qualities of Dead Sea salt bathing.

Dead Sea salts contain Magnesium Chloride, Sodium Chloride, Potassium Chloride, Calcium Chloride, Bromides, Iron and trace minerals. The high Magnesium Chloride content is considered to be a key element in the benefits of Dead Sea salt bathing.

## **Using Ancient Secrets® Dead Sea Salts**

**As a bath:** Use 2-4 ounces of these bath salts in your bath water. Ease your tired body, relax, let your cares slip away and allow the warm bath and mineral salts to remove tension and leave you feeling refreshed, soothed and pampered!

**Whirlpool, hot tub & sitz bath use:** Because we use fine mechanically cleaned salt and no foaming agents, Ancient Secrets® Dead Sea baths are suitable for use in whirlpools and hot tubs, enhancing the relaxation, invigorating and soothing effects of these baths.

**Foot Soak or Elbow/Wrist/Hand Soak:** Ancient Secrets® Dead Sea baths are also perfect for providing soothing relief to specific parts of the body. Many people use them for soothing tired feet, for instance, by adding 2-4 oz. into a non-metallic container or soak tub with warm water. Similarly they can be used for hand & arm joints.

**CAUTION:** If you are under medical supervision or treatment, consult your health care practitioner before use. Higher concentrations may be used if recommended by your doctor. For External Use Only. Keep Out of Reach of Children.

**We are committed to the following formulation principles for all of these products:**
